MELT

POUR

A vegetable derived melt and pour soap base, used for the manufacture of opaque soap bars, Crystal Donkey Milk is rich in vitamins which help to nourish the skin. A powerful moisturiser, Donkey Milk also acts as cleanser for the skin. Fatty acids from Donkey Milk can lessen the appearance of fine lines and wrinkles and help to regenerate damaged skin.

Crystal soap bases are ideal for manufacturers, brands, individual artisans and home soap-makers. Simply Melt, Mix, Pour, Create.

- > Made using Donkey Milk
- > High in vitamins E, A, B1, B6, C, D

- > Full of rejuvenating nutrients for the skin
- > Rich in Omega 3 and Omega 6
- > Excellent foaming
- > Good moisturising from high glycerine content
- > Gentle feeling on the skin
- > Neutral odour provides excellent fragrance lift
- > Suitable for slicing or moulding

MADE IN ENGLAND

GUIDE RECIPE

How to create a simple **Crystal Donkey Milk Soap Bar**.

To create your very own set of hand made glycerin soap bars, here is what you'll need:

- > **Crystal Donkey Milk** - Slice into meltable chunks
- > Fragrance if you wish
- > Add dried Botanicals if you wish
- > A soap mould and slicer
- > Microwave / Double boiler

Open /Cut - Simply open the packaging and safely cut the Crystal soap base into smaller cubes. Doing this will make the soap easier to handle and melt.

Melt - Gradually heat the soap base ensuring, that the soap melts evenly and does not boil and burn. If you are melting in a microwave please be careful and keep an eye on the soap as it can bubble over the container.

Mix - You can use Essential Oils, Fragrances, Colours, Botanicals and Additives. Simply add to the melted soap base and mix gently ensuring that any fragrance you have added is evenly distributed throughout the soap base.

Pour - Working quickly, pour your soap base into your soap mould. At this point you can add dried botanicals to the surface of the soap, by gently pressing them into the top of the soap.

Create - Once your soaps have set and fully hardened, remove from the moulds. We recommend always wrapping your soap bars immediately after releasing from the moulds to protect and preserve the soap.

PACKAGING

Crystal Melt & Pour soap bases are available in a range of packaging, just pick a size that suits your needs:

- > 1KG Tray / 2LB
 - > 11.5KG Box / 25LB
-
