

Safety Data Sheet

Lip Smacking Sweet Flavor Oil (V000139)

August 18, 2020

Section 1: Chemical Product and Company Identification

Product name: Lip Smacking Sweet Flavor Oil
Contact Info: YouWish
Vergulden Wagen 13
1111TD Diemen The Netherlands
www.youwish.nl

Emergency Phone Number: 1-877-627-7883

Within USA & Canada: 1.800.424.9300 CCN693143
Outside USA & Canada: +1.703.527.3887 (collect calls accepted)

Section 2: Hazards Identification

Classification

OSHA Regulatory Status

This product is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

GHS Label elements, including precautionary statements

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Precautionary Statements - Response

Get medical advice/attention if you feel unwell

Precautionary Statements - Storage

Store in a well-ventilated place. Keep container tightly closed.

Hazards not otherwise classified (HNOC)

Not applicable

Other information

Unknown Acute Toxicity: 0% in Composition

Section 3: Composition/Information on Ingredients

The specific chemical identities of the ingredients in this mixture are considered to be trade secrets and are withheld in accordance with the provisions of 1910.1200 of the Code of Federal Regulations.

Section 4: First Aid Measures

First aid measures for different exposure routes

Eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If symptoms persist, call a physician.

Skin contact: Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water.

Inhalation: Move to fresh air. If symptoms persist, call a physician.

Ingestion: Do NOT induce vomiting. Drink plenty of water. Rinse mouth

Protection of First-aiders: Use personal protective equipment.

Most important symptoms/effects, acute and delayed

Long Term Effects: None known.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician: May cause sensitization of susceptible persons.

Section 5: Fire-Fighting Measures

Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media

Decomposition by contact with water may generate vapors which can be ignited by heat or open flame.

Specific hazards arising from the chemical

No information available.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal precautions: Use personal protective equipment. Avoid contact with the skin and the eyes.

Methods and materials for containment and cleaning up

Methods for Containment: Prevent further leakage or spillage if safe to do so.

Methods for cleaning up: Soak up with inert absorbent material. Pick up and transfer to properly labeled containers. After cleaning, flush away traces with water. Prevent product from entering drains.

Section 7: Handling and Storage

Precautions for safe handling

Advice on safe handling: Ensure adequate ventilation. Wear personal protective equipment.

Conditions for safe storage, including any incompatibilities

Technical measures/Storage conditions: Keep container tightly closed in a cool and well-ventilated area. Keep out of the reach of children.

Incompatible products: None known based on information supplied.

Section 8: Exposure Controls/Personal Protection

Control parameters

Exposure Guidelines:

This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

Exposure controls

Engineering Measures:

Showers

Eyewash stations

Ventilation systems.

Individual protection measures, such as personal protective equipment

Eye/Face Protection: Tightly fitting safety goggles Face-shield

Skin and body protection: Wear suitable protective clothing.

Respiratory protection: If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations. A NIOSH-approved air-purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air-purifying respirators is limited. Use a positive pressure, air-supplied respirator if there is any potential for uncontrolled release, exposure levels are not known or any other circumstances where air-purifying respirators may not provide adequate protection.

Hygiene measures: When using, do not eat, drink or smoke. Remove and wash contaminated clothing before re-use.

Section 9: Physical and Chemical Properties

Physical state: Liquid

Appearance: Liquid

Odor: Characteristic

Odor Threshold: No information available

Color: Characteristic

pH: No information available

Melting/freezing point: No information available

Boiling point/boiling range: No information available

Flash Point: > 93.33 °C / > 200 °F - Closed cup

Evaporation rate: No information available

Flammability (solid, gas): No information available

Flammability Limits in Air

upper flammability limit

lower flammability limit

Vapor pressure: No information available

Vapor density: No information available

Specific Gravity: 1.050 @ 22 °C

Water solubility: Water soluble

Solubility in other solvents: No information available

Partition coefficient: n-octanol/water: No information available
Autoignition temperature: No information available
Decomposition temperature: No information available
Viscosity, kinematic: No information available
Viscosity, dynamic: No information available
Upper/Lower Explosive limits (vol%): No information available
Oxidizing Properties: No information available
Softening point: No information available
Molecular Weight: No information available
VOC Content (%): 2.54
Density VALUE: No information available
Bulk Density VALUE: No information available

Section 10: Stability and Reactivity

Reactivity

No information available.

Chemical stability

Stable under recommended storage conditions.

Possibility of hazardous reactions

None under normal processing.

Conditions to Avoid

Extremes of temperature and direct sunlight.

Incompatible Materials

None known based on information supplied.

Hazardous Decomposition Products

None known based on information supplied.

Section 11: Toxicological Information

Information on likely routes of exposure

Product Information: This mixture has not been subjected to toxicological testing but has been blended from materials with established toxicological bibliographies. In view of the difficulty of using current standard toxicological evaluation techniques to predict potential hazards to susceptible individuals or arising from unforeseeable potentiation, this preparation should be considered and handled as if it displayed health hazards and consequently treated with all possible precaution.

Inhalation: There is no data available for this product.

Eye contact: There is no data available for this product.

Skin contact: There is no data available for this product.

Ingestion: There is no data available for this product.

Information on toxicological effects

Symptoms: No information available.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Sensitization: No information available.

Mutagenic Effects: No information available.

Carcinogenicity: No information available.

Reproductive toxicity: No information available.

Specific target organ systemic toxicity (single exposure): No information available.

Specific target organ systemic toxicity (repeated exposure): No information available.

Chronic toxicity: No information available.

Aspiration hazard: No information available.

Numerical measures of toxicity- Product Information

Unknown Acute Toxicity: 0

The following values are calculated based on chapter 3.1 of the GHS document

Oral LD50 20,000.00 mg/kg

Dermal LD50 17,021.00 mg/kg

Section 12: Ecological Information

Ecotoxicity

Persistence and degradability

No information available.

Bioaccumulation

No information available.

Mobility

No information available.

Other adverse effects

No information available

Section 13: Disposal Conditions

Waste treatment

Waste Disposal Methods: Dispose of in accordance with local regulations. Do not empty into drains.

Contaminated packaging: Do not empty into drains. Empty containers should be taken to an approved waste handling site for recycling or disposal. Dispose of in accordance with local regulations. Do not re-use empty containers.

Section 14: Transport Information

DOT: Not regulated

TDG: Not regulated

Section 15: Regulatory Information

International Inventories

TSCA: Complies

DSL/NDL: Complies

EINECS/ELINCS: Not determined

ENCS: Not determined

IECSC: Complies

KECL: Complies

PICCS: Complies

AICS: Complies

Legend

U.S. Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

SARA 311/312 Hazard Categories

Acute Health Hazard: Yes

Chronic Health Hazard: No

Fire Hazard: No

Sudden Release of Pressure Hazard: No

Reactive Hazard: No

FEMA High Priority Substances

DANGER – This product may pose an inhalation hazard if improperly handled. Please contact your workplace safety officer before opening and handling, and read the SDS. Handling of this product that results in inhalation of fumes, especially if the flavor is heated, may cause severe adverse health effects and risk of respiratory injury. Please refer to the FEMA Respiratory Health and Safety in the Flavor Manufacturing Workplace 2012 update which is available for download at <http://www.femaflavor.org/workplace-safety>. Additionally volatile flavoring agents, in particular Acetyl Propionyl (2,3-Pentanedione / CAS#600-14-6), if present, may cause lung damage and clinical syndromes associated with bronchiolitis.

Chemical Name: Benzaldehyde

CAS #: 100-52-7

***Weight %:** <0.1%

California Proposition 65

This product does not contain any reportable Proposition 65 chemicals above our level of detection.

International Regulations

Mexico - Grade

Slight risk, Grade 1

Canada

WHMIS Hazard Class

Not subject to WHMIS classification

Section 16: Other Information

The information in this publication is believed to be accurate and is given in good faith, but no representation of warranty as to its completeness or accuracy is made. Suggestions for uses or applications are only opinions. Users

are responsible for determining the suitability of these products for their own particular purpose. No representing of warranty, expressed or implied, is made with respect to information or products including, without limitation, warranties or merchantability, fitness for a particular purpose, non-fringement of any third party patent or other intellectual property rights including, without limit, copyright, trademark and design.
