First aid measures 4.1 Description of first aid measures General advice Move out of dangerous area. Consult a physician. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended. If inhaled If unconscious place in recovery position and seek medical advice. If symptoms persist, call a physician. In case of skin contact If on skin, rinse well with water. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. In case of eye contact Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist. If swallowed Keep respiratory tract clear. Do NOT induce vomiting. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. Take victim immediately to hospital. 4.2 Most important symptoms and effects, both acute and delayed Symptoms no data available 4.3 Indication of any immediate medical attention and special treatment needed Treatment no data available 5. Fire-fighting measures 5.1 Extinguishing media Suitable extinguishing media Dry chemical Alcohol-resistant foam Carbon dioxide (CO2) Water spray Unsuitable extinguishing High volume water jet media 5.2 Special hazards arising from the substance or mixture Specific hazards during firefighting Do not allow run-off from fire fighting to enter drains or water courses. 5.3 Advice for firefighters Special protective equipment for fire-fighters Wear self contained breathing apparatus for fire fighting if necessary. Further information Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. 6. Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures Personal precautions Use personal protective equipment. 6.2 Environmental precautions Environmental precautions Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities. 6.3 Methods and materials for containment and cleaning up Methods for cleaning up Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.
