The Oil Factor	YouWish presents Apple Seed Oil, Cold Pressed. We can deliver you a beautiful oil from the very seeds of an Apple. This is one of our favorites hence why we need supply expectations from our clients in good time because it sells fast when harvest comes into fruition. The seeds are a by-product of the fruit juice industry, so no waste. We collect the seeds (a lot of them!) and then press away. This completely natural cold pressing method delivers a stunningly fresh, light "marzipan" aromatic oil. As for the inherent benefits, just like our wide range of natural fruit seed oils, it's full of antioxidants. Widely used in skin care for this very reason & of course for the marketing benefits of a 100% naturally produced oil, utilising a raw material that would otherwise be disposed of. Unique, different, versatile, functional... Exactly what we strive for here at YouWish.
Functionality	A good emollient and absorbs beautifully into ones skin. A light marzipan/almond aroma. Promotes cell regeneration which delivers you silky smooth, new skin. A fantastic ingredient for your shampoo, due to its ability to give shine and strength to the hair molecules. A classic skin nutrient & protector bursting with antioxidants. The production story of this oil alone is a good reason to involve it in your formulations - Zero waste production.
