

**DECLARATION OF COMPLIANCE TO REGULATION RELATING TO PLASTIC
MATERIAL AND ARTICLE INTENDED TO COME INTO CONTACT WITH
FOODSTUFFS¹**

Declare that the plastic material containing the following substances:
-PET Polyethelene Terephthalate

Referred as follows:

Reference	Customer
Bottle 100 ml - all colors Bottle 250 ml - all colors Bottle 500 ml - all colors Bottle 1000 ml - all colors Jar transparent 250 ml Spray bottle 100 ml Creme jar 100 ml - all colors Creme jar 250 ml - all colors Creme jar 500 ml - all colors Creme jar 1000 ml - all colors	YouWish

Conforms to the requirements of **EC Regulation 1935/2004** of the European Parliament and of the Council of 27 October 2004 on materials and **articles intended to come into contact with food** (*Framework Regulation*) and is produced under good manufacturing practices in compliance with EU Regulation 2023/2006.

*And also conforms (as a consequence of EC Regulation 1935/2004) to the specific requirements of **EU 10/2011** of 14 January 2011 relating to **plastic materials** and articles intended to come **into contact with foodstuffs**, and following amendments. Regarding 2020/1245 we don't have all information from our suppliers at this moment, so we can't send a conformation for this amendment. For already existing products the transition period is until 23.09.2022*

When used as specified, the overall migration as well as the specific migration below do not exceed the legal limits. The test was performed according to the European Directive of EC 10/2011 of 14 January 2011.

Overall Migration 10 days at 60° C.

Limit	Simulant
< 10 mg/dm ²	3% Acetic Acid
< 10 mg/dm ²	10% Ethanol
< 10 mg/dm ²	Olive Oil

By using these simulants we demonstrate compliance with the overall migration limit for all type of foods testing. Our products can be used for storage at room temperature or below > 6 months.

Specific Migration 10 days at 60° C.

Substances	Specific Migration Limit	Simulant
Ethylene Glycol (MEG) (Cas nr.107-21-1) Diethylene Glycol (DEG) (Cas nr.111-46-6)	Combined < 30mg/kg Foodstuff	3% Acetic Acid
Terephthalic Acid (Cas nr. 100-21-0)	7.5 mg/kg Foodstuff	Olive Oil
Isophthalic Acid (Cas nr. 121-91-5)	5 mg/kg Foodstuff	Olive Oil
Antimony Trioxide (Cas nr. 0001 309-64-4) expressed as Antimony	0.04 mg/kg Foodstuff	3% Acetic Acid
Acetaldehyde (Cas nr. 75-07-0)	6.0 mg/kg Foodstuff	3% Acetic Acid

Use is made of a dual use additive during the production of PET, phosphoric acid E338, which is listed as approved additive in the positive list of EU 10/2011.

The ratio surface/volume of the tested product to establish the compliance was 15 dm²/kg

PET products could be filled at maximum of 60° C and should be stored in a dry and clean storage to avoid (cross) contamination, damage and deformation. Do not expose the pallets to direct sunlight, this will cause the products to deform. Pallet handling instruction is available.,

The materials used comply with the respective stipulations laid down in the EC 10/2011 of 14 January 2011 including the amendments.

Traceability of the product is ensured through the pallet number with the date of production.

This declaration is valid for the product delivered by us as specified above. The Directive EC 10/2011 provide a guideline for the selection of test conditions to be used for various food products. According to that and under consideration of the food contact conditions stated, the product complies with the stipulations of these Directive regarding the packaging of food products to be packed.

It is the responsibility of our customers to determine that their use of our product(s) is safe, lawful, and technically suitable in their intended applications. Because of possible changes in the law and in regulations, as well as possible changes in our products, we cannot guarantee that the status of this product will remain unchanged. We, therefore, recommend that customers continuing to use this product verify its status periodically.
