CAS Number	8022-56-8 / 84776-73-8
EINCS Number	282-025-9
Customs Tariff Code	3301 2941 00
UN Number	1169
The Oil Factor	presents Sage, Essential Oil. This aromatic oil is steam distilled from the leaves. Sage is considered a tonic & very good for hair care products, predominantly conditioning; thinning & for those grey hair growers! We particularly like to use it as a pre-shampoo tonic, apply before shampooing & then wash off.
Functionality	An excellent tonic oil, great for conditioning hair. A good moisturiser for grey hairs. With a lovely sage-like aroma, it blends wonderfully with other essential oils, in particular in massage blends.
REACH Status	Reach registered: 01-2120769905-38-0000
Food Status	can confirm that Sage, Essential Oil IS suitable for food application, only when the appropriate quantity/dilution is used. This material complies with European Food Regulations (i.e. 1881/2006). Please note, if you intend on using this product as a food ingredient we insist you email our Technical Team before doing so for our opinion on the dilution applied to your finished product.
